

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
MONITORING REQUIREMENTS NOT MET FOR**

MILTON WATER, WV3300609

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. Between 1/1/2023 and 12/31/2023, we failed to submit the required samples as indicated below and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the required monitoring and the compliance period.

Required Monitoring	Compliance Period
03, MONITORING, ROUTINE MAJOR NITRATE Results Not Reported as required	1/1/2023 to 12/31/2023

What happened? What is being done? (Describe corrective action)

The sample listed above was not taken in the appropriate time frame. This has been corrected and proper samples have been analyzed. All analyses were within drinking water standards.

For more information, please contact Jeff Miller at 304-743-3821
